The following regional profiles offer a snapshot of selected indicators of child and family well-being for each of Vermont's 12 regions, which line up with the Agency of Human Services Districts. Each indicator represents the most high-quality, up-to-date data that is available at the regional level and includes the same data from five years prior for comparison.

Each profile includes a highlight of a Regional Council success as well as five key data points: 1. The estimated population of children under 10, 2. The percentage of children under 12 living in households with incomes below 185% of the Federal Poverty Level (the benchmark for many benefit programs), 3. The number of children under 9 living in out-of-home custody, 4. The percentage of children ready for kindergarten, and 5. The percentage of third grade children reading at or above "proficient."

### Current Status of All Vermont Children

**CHILD POPULATION**<sup>1</sup> (2021)
- **60,364** children under 10
- Decreased from 62,535 in 2016

**CHILDREN LIVING IN POVERTY**<sup>2</sup> (2020)
- **30.4%** children under 12 (22,125)
- Decreased from 35.1% in 2015 (26,732)

**CHILDREN IN OUT OF HOME CUSTODY**<sup>3</sup> (2022)
- **541** children under 9
- Decreased from 618 in 2017

*Under 185% of the Federal Poverty Level*

Caledonia & Southern Essex

The Caledonia and Southern Essex Regional Council has committed to increasing diversity, equity, and inclusion throughout the region’s early childhood system. Supported by funds from the Ben & Jerry’s Foundation, the Regional Council spearheaded an effort to increase the diversity in the children’s book collections at five rural libraries, located in Lunenburg, Danville, St. Johnsbury, Lyndonville, and McIndoe Falls. Council funds helped each of the libraries expand their collections by purchasing books and increasing opportunities for children in the region to be exposed to different cultures and perspectives. For the McIndoe Falls library, this project was particularly important in two ways. First, with newly available housing in the community, there are more families with young children in the area who have started using the library. These books contributed directly to the revitalization of the children’s section. Second, the new connection between the Regional Council and the library will inform the Council of the needs in McIndoe Falls, and Council members and partners can provide resources and support more directly to the library and families.

Current Status

CHILD POPULATION1 (2021)

3,172 children under 10
Decreased from 3,393 in 2016

CHILDREN LIVING IN POVERTY2* (2020)

41.2% children under 12
(1,593)
Decreased from 40% in 2015 (1,661)

CHILDREN IN OUT OF HOME CUSTODY3 (2022)

24 children under 9
Decreased from 39 in 2017

*Under 185% of the Federal Poverty Level

Building Bright Futures’ Regional Councils bring together early childhood stakeholders to identify gaps, share expertise and resources, elevate regional and family voices, and implement strategies in each respective region. These strategies include identifying gaps for children and families and aiming to improve access to services and supports across early care, health, and education for young children and families in their communities. Regional Council members are crucial to each stage of this process, both in official convenings of the Regional Councils and within the early childhood system more broadly.

The 12 Regional Councils are mandated to support an integrated system of early care, health, and education at the local level under Vermont Statute Title 33 § Chapter 46. In alignment with, and with support from, the State Advisory Council, Regional Councils are tasked with coordinating and implementing services in accordance with system and regional priorities. Regular Regional Council meetings are just one way that this mandate is fulfilled.

Early childhood stakeholders from across Vermont bring their perspectives together through Regional Councils 8-10 times a year. Participants at regional tables include professionals in physical and mental health, social services, basic needs, early childhood care and education, and preK-12 education; families of children under 9; and community members invested in the well-being of young children.

Annually, each Regional Council sets two regional priorities to guide their work. The map below illustrates the top two priorities of each region, showcasing the similarities and differences among the 12 regions in Vermont.

More information about each region, including Regional Council meetings, can be found at buildingbrightfutures.org/what-we-do/regional-councils/
